An issue slip specifying that, by order of the commanding officer of an unidentified technical unit, a brake cable had been issued to Unit 25X1C by Gds Lieutenant Colonel (Tech) Sheberetov, (fnu), deputy commanding officer. d. A list with radio signals. (8) 25X1A Comments, The arrival of large components of the 6th Cds Tank Div from Wittenberg at the Werder-Warkendorf troop training grounds 25X1 25X1A has been known from previous reports. The numerical designations of the individual sections of Camp Terder in the present repo 25X1A are keyed to a sketch attached to a previous report. The unit in Section 1 is believed to be the 385th Cds Arty Regt of the 6th Gds Tank Div. possibly from Jueterbog-Altes Lager. In a report of November 25X1 referred to the regiment as Unit\_Balbanovski in the Jueterbog-Altes Lager. 25X1A 25X1 reported Lieutenant Colonel Balbanovski, (fnu), to be the commanding officer of a component unit of the 6th Gds Tank Div in 25X1A Jueterbog. The identity of the units in Sections 2 and 4 has not been determined. It is possible, however, that they belong to the 6th Cds Tank Div since, in addition to the 385th Cds Arty Regt, still other elements of the division are believed to be stationed in Jueterbog- Altes Lager. Sections 11, 12 and 15 believed to quarter elements of the three medium tank regiments of the 6th Gds Tank Div. The commanding officers have been 25X1 reported at the beginning of April 1951, in conjunction with the arrival 25X1A of advance parties of the respective units. 25X1A The types of armored vehicles indicate that Section 14 quarters elements of the 78th Gds Hv Tank SP Rogt. 25X1A Fost of the 25X1C in Paragraph 2 belong to the 6th Gds Tank Div and some to the 32d (?) AAA Div. 25X1 elements of the AAA Division have been at Jueterbog since early April 1951. 25X1A 25X1 . In summary the present report indicates that only elements of the 6th Gds Tank Div, predominantly tank units, arrived at Camp Werder-Markendorf by the end of April 1951. 25X1

25X1C 25X1C (7) L belongs to an unidentified tank unit of the 14th Cds Mecz Div in the Hindersin Kaserne, Jueterbog. 25X1C is possibly assigned to an air force unit. belongs to the Hq lith Gds Mecz Div. Lieutenant Colonels Smirnov, (fnu), and Naiden, (fnu), are known as political officers who, together with Major General M. Kh. Kalasanik, chief of the Political Administration of the GOFG, lectured in Templin in March 1950. 25X1A 25X1A Lieutenant Colonels Panichkin, (fnu), and Shvets, (fnu), mentioned in the present report, may be two political officers identified in World War II. It is therefore concluded that the 10 officers in paragraph 3 of the present report belonged to a group of political officers of the GOFG who conducted a course of political indoctrination in Justerbog. The belief is supported by the fact that the officers were referred to as ne. arrivals. (8) probably belongs to the 5th Hv Tank SP Regt of the 14th Cds Mecz Div lis believed to belong to an unidentified unit in Jueterbog-25X1C Neues Lager.
